

Testing Sites

How can you test your site?

- If you want to test your Site, but you don't have access to multiple devices, what should you do?

Resize Your Window

- One option is to resize your own window and refresh the site
 - Doesn't solve problem if you are on a mobile device

Use an online tool

Online tool:

– <http://ami.responsivedesign.is/>

<http://www.intro-webdesign.com>

<http://www.mlive.com>

<http://collemc.people.si.umich.edu/>

Chrome or Firefox Tools

- Many browsers have tools for viewing your code on different viewports.
- With Chrome you can use Inspect Element to see different viewports.

Review

- Surveying existing sites will help you develop a feeling for what you would like (or like to avoid) on your site.
